## U.S. Ambassador's Innovation Roundtable

*Presented by the U.S. Embassy and U.S. Consulate Melbourne in partnership with Tonsley and Flinders University*

Every day, U.S. research institutions, businesses, and centers of education engage with their Australian counterparts to develop innovative solutions to problems. The "Ambassador's Innovation Roundtable" in Adelaide will highlight U.S.-Australian innovation success stories, discuss challenges in linking research and development to commercial opportunities, and advance priorities in STEM Education. Panel discussions will also explore the potential of future innovation partnerships.

The roundtable will be an opportunity for young entrepreneurs to engage with business and industry representatives to discuss potential relationships that foster innovation.
